

Keyboard Commands

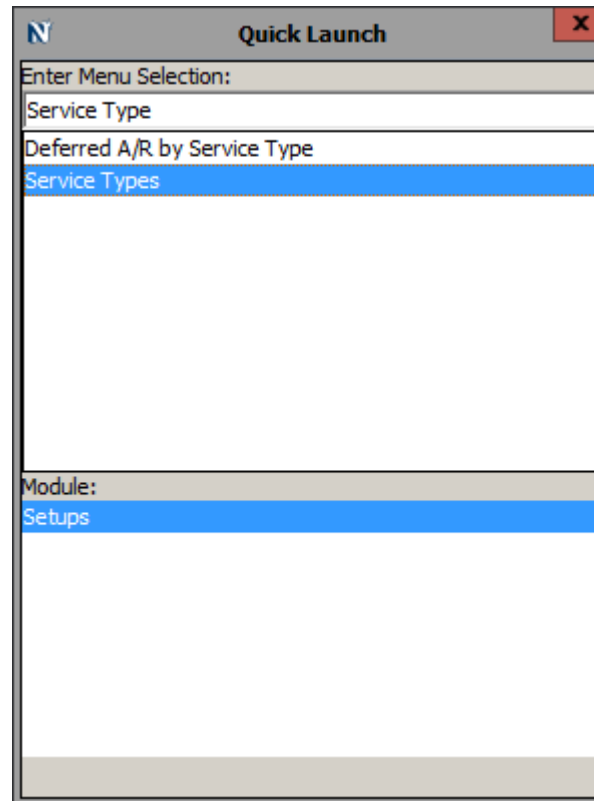

CTRL O - Quick Launch

- Search for tables using key words
- Returns all table names containing search criteria
- Provides Module table is located within

The search criteria in the example is Service Type. The search results returned two (2) tables. The Service Types table is located in the Setups module.

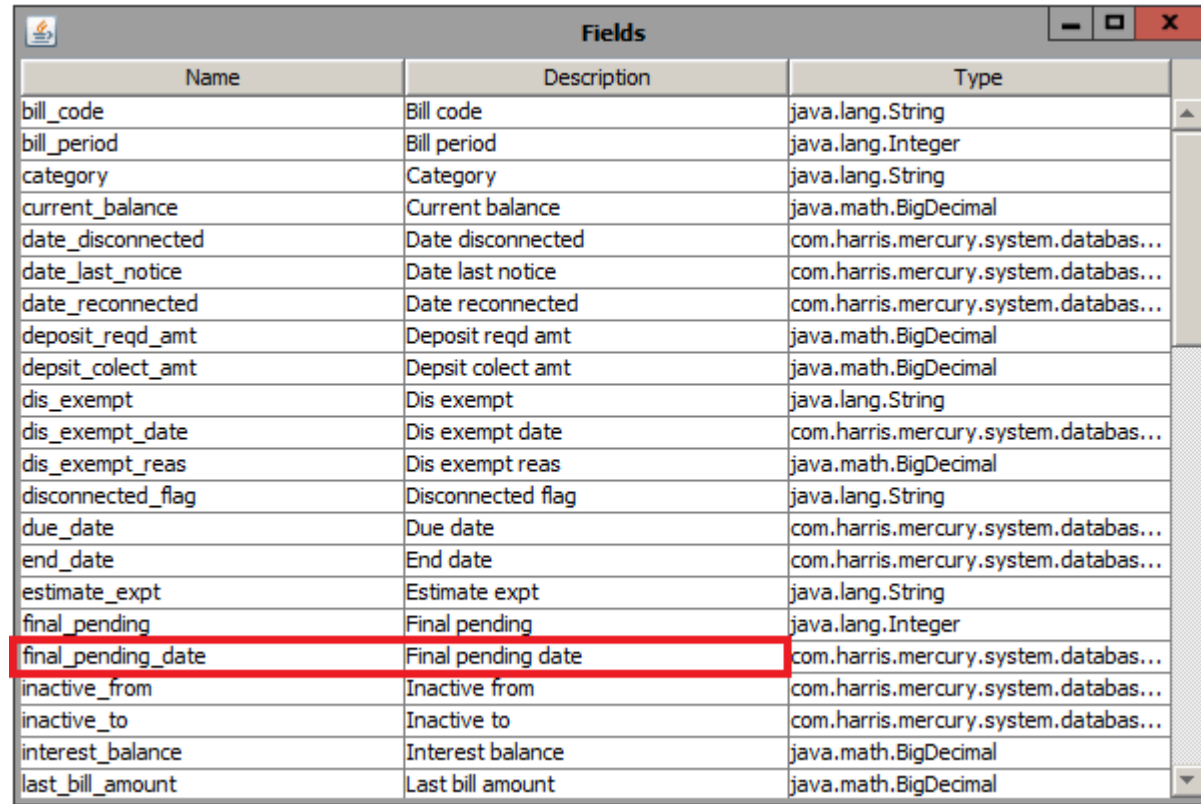

Single click on a table to select/highlight and view the table location (module).

Double click on a selected table to open the table within the named module.

F11 - Field Name Table

- Helpful when locating field names for an Advanced Find
- Provides field name & description

Name	Description	Type
bill_code	Bill code	java.lang.String
bill_period	Bill period	java.lang.Integer
category	Category	java.lang.String
current_balance	Current balance	java.math.BigDecimal
date_disconnected	Date disconnected	com.harris.mercury.system.databases...
date_last_notice	Date last notice	com.harris.mercury.system.databases...
date_reconnected	Date reconnected	com.harris.mercury.system.databases...
deposit_reqd_amt	Deposit reqd amt	java.math.BigDecimal
depsit_colect_amt	Depsit colect amt	java.math.BigDecimal
dis_exempt	Dis exempt	java.lang.String
dis_exempt_date	Dis exempt date	com.harris.mercury.system.databases...
dis_exempt_reas	Dis exempt reas	java.math.BigDecimal
disconnected_flag	Disconnected flag	java.lang.String
due_date	Due date	com.harris.mercury.system.databases...
end_date	End date	com.harris.mercury.system.databases...
estimate_expt	Estimate expt	java.lang.String
final_pending	Final pending	java.lang.Integer
final_pending_date	Final pending date	com.harris.mercury.system.databases...
inactive_from	Inactive from	com.harris.mercury.system.databases...
inactive_to	Inactive to	com.harris.mercury.system.databases...
interest_balance	Interest balance	java.math.BigDecimal
last_bill_amount	Last bill amount	java.math.BigDecimal

CTRL + F12 - Individual Field Name

- Identify individual field names for an Advanced Find
- Provides field name description

To view the individual field name, use the CTRL + F12 function. Then, hover over the far left side of the field box. The Field Name will appear in a yellow box.

The example shows the Service Details field called Final Pend. After using the CTRL + F12 function, the Field Name displays as final_pending_date.

The screenshot shows the 'Service Details (BROWSE)' window. At the top, there's a navigation bar with 'Main | Detail | Balances / Aging | Screen Audit |'. Below that, the 'Billing Information' section contains a table with columns: Total, Current, Overdue, Interest, and Late Charge. The 'Service Information' section includes fields for Service (E), Location (I), Category (10), Bill code (RG-1), Bill period (1), and NAIC code (1). The 'Final pend:' field is highlighted with a red box, and a yellow tooltip shows 'Field name: final_pending_date'. Other sections include Exemptions, Notices, and Readings.

	Total	Current	Overdue	Interest	Late Charge
ELECTRIC	14.02	14.02	0.00	0.00	0.00
	29.24	29.24	0.00	0.00	0.00
