

TECHNOLOGY SUITE

Tech Suite Conference 2025

Preparing for the Future with Advanced Tools and Shared Learning

Wednesday, May 21

8:30 a.m. – 4:00 p.m. Central Time • WPPI Energy • 1425 Corporate Center Dr.,
Sun Prairie

WHO SHOULD ATTEND

This full-day program is recommended for any member utility field or office staff using billing, metering and GIS technologies.

Join Us!

This year's event offers a full day of opportunities to explore new and emerging tools available through the WPPI Technology Suite of Services. The discussions and presentations will focus on fostering a deeper shared understanding among utility staff of each other's roles, needs and responsibilities in the context of these applications.

- » **Engage:** General sessions and breakout groups will cover a wide range of topics, including a forward-looking roadmap for billing, customer service and distribution services.
- » **Future Insights:** Get the inside scoop on what's ahead for software integrations and upgraded capabilities.
- » **Connect:** Don't miss this unique opportunity to connect with other members, share new ideas and build powerful partnerships—all centered around best practices within utility technology.

Agenda

8:30 a.m. Opening Session

- » Technology Roadmap - Where Are We Going?
- » MDMS - A Look at Where We Are

Breakout Sessions

With five interactive sessions, attendees have the flexibility to personalize their day by choosing between two engaging options—Session A or Session B—at each designated time.

	Session A	Session B
1	NorthStar7 <i>A look to the future</i> (Kevin Coleman, Harris Northstar)	AMI/MDMS <i>Recent developments and future direction</i>
2	Customer Technologies <i>Introduction of VertexOne and Q&A</i>	New Technology <i>The Future of GIS</i>
3	Roundtable <i>State of Wisconsin Energy Fuel Information</i>	Roundtable <i>Metering and billing accuracy from field install to billing</i>
4	Community Engagement <i>Summer snack bags</i>	Demonstrations <i>OpenPoint OMS and PowerClerk</i>
5	Roundtable <i>Customer Information System</i>	Roundtable <i>Field Operations</i>

3 p.m. Closing Session

- » Looking Forward: Cybersecurity and Artificial Intelligence within the Utility

4 p.m. Adjourn

Food, Fun & Raffles

A continental breakfast and lunch will be served. All attendees will be eligible to win raffles!

Metering Seminars

Tuesday, May 20, 9 a.m. - 4 p.m. - Sensus

(The Round Table, 1611 N Bristol St.

Sun Prairie Wis.)

Thursday, May 22, 9 a.m. - 4 p.m. - Honeywell

(WPPI Energy, 1425 Corporate Center Dr.

Sun Prairie, Wis.)

In conjunction with the Tech Suite Conference, two seminars will offer members the opportunity to enhance their metering expertise. Attendees will gain valuable insights into current metering trends, industry challenges and practical solutions, all while networking with peers and engaging directly with their metering vendor. Representatives from respective metering systems will conduct the seminars.

Operations and field staff in both electric and water are encouraged to attend. Any interested office staff are also welcomed and will find the sessions valuable.
