

November 4, 2020

Financial Highlights	<p>In the third quarter 2020, WPPI Energy's change in net position was \$15,862,184 compared to \$15,504,251 in the third quarter 2019. Due to seasonal wholesale rates that include a higher demand charge during the summer months, WPPI Energy experienced a higher change in net position in the third quarter than experienced in the previous two quarters of 2020, similar to the pattern experienced in 2019.</p> <p>Energy sales to members totaled 1,311,004 megawatt-hours (MWh) in the third quarter of 2020. This is 34,467 MWh or 2.6% less than the same period a year ago, due in part to COVID-19 related impacts. Offsetting this impact to a degree was warmer weather in July and August 2020.</p> <p>Total operating revenues for the third quarter in 2020 were \$130,413,054 or 1.3% lower than the same period a year ago. Total operating expenses for the third quarter in 2020 were \$115,143,445 or 1.4% lower than the same period a year ago. The decrease in operating revenues is primarily due to lower revenues from off system sales. The decrease in operating expenses in the third quarter 2020 compared to 2019 is driven by lower fuel, transmission, and operating and maintenance expenses.</p>
Power Supply Update	<p>WPPI Energy's 20% share of Boswell Unit 4 generated 134,213 MWh at an average capacity factor of 52.0% during the third quarter of 2020. This compares to generation of 175,404 MWh and an average capacity factor of 67.9% in the third quarter of 2019. Unit 4 came off line for a planned seven day outage on September 27. Low market energy prices also contributed to the lower capacity factor for Unit 4.</p> <p>WPPI Energy's 8.33% share of the Elm Road units generated 223,209 MWh at an average capacity factor of 95.7% during the third quarter of 2020. In the same quarter a year ago, the units generated 193,872 MWh at an average capacity factor of 83.1%. Both units ran continuously through the entire third quarter of 2020.</p>
News Highlights	<p>The WPPI Energy membership's 2020 WPPI Annual Meeting and Board of Directors Meeting took place virtually on September 17. With a theme of "Forty & Forward," the program featured a State of WPPI video address by President and CEO Mike Peters, a presentation from APPA CEO Joy Ditto, an awards presentation recognizing all of the utility members celebrating significant milestones, Steve Thompson's induction into the WPPI Energy Joint Action Hall of Fame, and concluded with a video highlighting the past forty years titled, "A History of WPPI Energy."</p>
Company Profile	<p>WPPI Energy is a regional power company serving 51 locally owned, not-for-profit electric utilities. Together through WPPI Energy, these public power utilities share resources and own generation facilities to provide reliable, affordable electricity to more than 200,000 homes and businesses in Wisconsin, Upper Michigan and Iowa.</p>
